

AIG CONCLAVE

PERIOPERATIVE — MEDICINE —

22nd & 23rd March, 2025

AIG Hospitals
Mindspace Road,
Gachibowli, Hyd

Dear Colleagues,

Greetings fromAIG Hospitals, Hyderabad.

We are pleased to extend a warm invitation to you for the International Conference on Perioperative Medicine, a premier event that promises to be both informative and transformative. This conference will bring together the perioperative physicians (anaesthesiologists), from around the globe to explore the evolving field of perioperative medicine, which focuses on the comprehensive care of surgical patients, from preoperative assessment through postoperative recovery either as day care procedures or in the Surgical Critical Care.

The conference will feature a series of innovative and interactive lectures, debates and unique workshops led by distinguished national and international experts. These workshops are designed to enhance your understanding of perioperative care, offering hands-on training in the latest techniques and best practices.

Perioperative medicine is increasingly recognized as a critical component of patient care, aiming to optimize outcomes by managing medical conditions throughout the surgical journey.

This multidisciplinary approach not only improves patient safety but also enhances overall surgical success.

We believe this conference will provide a unique platform for learning, networking, and professional growth. Your participation would greatly enrich the discussions and collaborations that are central to advancing our field.

Looking forward to welcome you all to our city of Nawabs, Pearls and delicious Biryani.

Regards,

SunilT Pandya
Chief, Dept. of Anaesthesia,
Perioperative Medicine &Critical Care
