

# Exploring Coagulation

**7<sup>th</sup>**  
**FRIDAY**  
March-2025

Eligible for  
**1 Credit**  
Point from  
Telangana  
State Medical  
Council

**Key Updates, Clinical Applications  
and Challenges**

**9:00AM -  
02:00PM**

**Venue: Academic Studio, 5<sup>th</sup> Floor, Tower-A, AIG Hospitals, Gachibowli, Hyderabad**

Organised by  
**Department of Pathology, AIG Hospitals**

## PATRONS

**Dr. D Nageshwar Reddy**  
Chairman, AIG Hospitals

**Mr. P V S Raju**  
Vice Chairman, AIG Hospitals

**Dr. G V Rao**  
Director, AIG Hospitals

## ORGANIZING CHAIRPERSON

**Dr. Anuradha Sekaran**  
Director and HOD of Pathology  
and Molecular Pathology

**Registration is FREE  
but Mandatory**

**REGISTER NOW**

# AGENDA

| TIME            | TOPIC                                                                         | SPEAKER                                                                         |
|-----------------|-------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| 08:30 -09:15AM  | Registration                                                                  |                                                                                 |
| 09:20 -09:30AM  | Introduction                                                                  | Dr Anuradha Sekaran<br>Director and HOD of Pathology<br>and Molecular Pathology |
| 09:30 - 09:50AM | Ensuring Precision: The role of Preanalytical Variables in Coagulation Assays | Dr. Shantveer G. Uppin<br>Nizam's Institute of Medical Sciences                 |
| 09:50 -10:10AM  | Lab Diagnosis of Von Willebrand Disease                                       | Dr Tushar Sehgal<br>AIIMS, New delhi                                            |
| 10:10 -10:15AM  | Discussion                                                                    |                                                                                 |
| 10:15 -10:35AM  | Coagulation Disorders and Diagnostic Urgency - Clinical Perspective           | Dr Wanve Balasaheb<br>AIG Hospitals                                             |
| 10:35 -10:40AM  | Discussion                                                                    |                                                                                 |
| 10:40 -11:10AM  | Case Based Discussion on Bleeding and Thrombotic Issues in GI Patients        | Dr Jyoti Kotwal<br>Sir Ganga Ram Hospital                                       |
| 11:10 -11:15AM  | Discussion                                                                    |                                                                                 |
| 11:15 -11:30AM  | TEA BREAK                                                                     |                                                                                 |
| 11:30 -11:55PM  | Approach and Diagnosis of Coagulopathy in Liver Disease                       | Dr Anil Handoo<br>Max Health Care Institute Limited                             |
| 11:55 -12:00PM  | Discussion                                                                    |                                                                                 |
| 12:00 -12:15PM  | Bleeding with a normal screening coagulogram                                  | Dr Tushar Sehgal<br>AIIMS, New delhi                                            |
| 12:15 -12:20PM  | Discussion                                                                    |                                                                                 |
| 12:20 -12:45PM  | Fibrin Degradation Products and D Dimers: Interpretation in Clinical Practice | Dr P. Lalitha Jyotshna<br>Lady Hardinge Medical College                         |
| 12:45 -01:15PM  | Platelet Function Tests and Their Importance in Coagulation                   | Dr Jyoti kotwal<br>Sir Ganga Ram hospital                                       |
| 01:15 - 01:20PM | Discussion                                                                    |                                                                                 |
| 01:20 - 01:35PM | ADAMTS13 unveiled :<br>A deep dive into its role in coagulation               | Dr Tushar Sehgal<br>AIIMS, New delhi                                            |
| 01:35 - 01:50PM | Interactive Case Studies:<br>Challenging Coagulation Disorders                | Moderator:<br>Dr Anuradha Sekaran                                               |
| 01:50 - 02:00PM | End of session and lunch (Valedictory)                                        |                                                                                 |
