MESSAGE FROM THE CHAIRMAN

Dr. D Nageshwar Reddy
Chairman and Managing Director

Dear friends and colleagues,

It is indeed a pleasure for us to **welcome you to Hyderabad on 25th - 27th April 2025 for the International Symposium on Inflammatory Bowel Diseases, AIG IBD Summit 2025.**

Inflammatory Bowel diseases including Crohn's Disease & Ulcerative Colitis are chronic lifelong conditions. Establishing and maintaining symptom control & remission is critical to minimize complications. IBD is an emergent disease not only in India but in several parts of the Asia-Pacific, Africa, and the Middle East with a rising incidence over the last decade. The changing socioeconomic environment and prevalent disease patterns has presented unique diagnostic dilemmas, management controversies and challenges. Our work along with the collaborators at the IBD-ENC (IBD Emerging Nations' Consortium) have shown that we need a differential approach for geography.

This symposium aims to provide an indepth review of the pathophysiology, diagnostic methods, medical and surgical therapeutic approaches of IBD. Key international and national experts in the field will discuss, debate, and highlight the latest concepts and consensus in the management of IBD.

Overall, we need to learn from each other, share knowledge and best local practices to optimally manage our patients. We would like to welcome everyone who has interest and interaction with IBD patients to come forth and **join us in Hyderabad in April 2025!!**

MESSAGE FROM TEAM AIG

Dr. Rupa Banerjee
Director, IBD Center, AIG Hospitals

Dear Friends & colleagues,

It is our privilege to invite you all for the **AIG IBD Summit 2025 from 25th to 27th April in Hyderabad, India.**

IBD is emerging rapidly in the South Asian countries and the Middle East, despite the vast geographical diversity. **Our collaborative efforts of 25 countries at the IBD-ENC (IBD- Emerging Nations Consortium) has highlighted the emerging nature, increasing incidence and the similar challenges we face in this part of the world.**

The AIG IBD Summit will bring all key stakeholders together to deliberate and discuss options & feasibilities to optimize treatment of patients in this part of the world. **The three-day conference will constitute of a dedicated Post-Graduate course, the well-known Live IBD Endoscopy Workshop, State-of-the-Art lectures, Biologics Symposium, covering the entire spectrum of management of this chronic lifelong condition.**

Hyderabad has the unique distinction of being a historical city with palaces, museums and bazaars as well as a modern-day technology hub and offers a unique gateway to explore India's rich cultural heritage.

We are eagerly awaiting your arrival here and an exciting conference ahead !!
