

**ADVANCED INTERVENTIONAL  
PULMONOLOGY MASTERCLASS  
& HANDS ON WORKSHOP**

AIG Hospitals, Gachibowli,  
Hyderabad, India.

7th July, 2019

An initiative by:  
Department of Pulmonology

## **Dear Colleagues,**

Diagnostic and Therapeutic procedures utilized by the pulmonologist have undergone major improvements in the last several years and the armamentarium available to the operator is ever increasing. It is important for the practicing physicians to stay abreast with the technological advancements, to provide quality care to the patients. With this very objective AIG PULMONOLOGY Department is coming up with a focussed CME and workshop on Advanced Interventional pulmonology techniques.

In this workshop our expert faculty will be discussing about various advanced procedures in the field of interventional pulmonology including: linear EBUS, Radial EBUS, Rigid bronchoscopy, use of various bronchoscopic modalities like cryo, thermal ablation techniques. Highlights include (1) didactic lectures (2) videos demonstration (3) live cases

Importantly we provide hands on sessions during which attendees can practice the use of EBUS-TBNA, Radial EBUS, Rigid bronchoscopic techniques, use of Cryo and APC, under the guidance of experts in these fields. To spice up the CME we are also adding a special talk on Navigational bronchoscopy & Bronchial Thermoplasty by eminent speakers in this modalities.

Best regards

**Team Pulmonology**

AIG Hospitals

# PROGRAMME

Time	Topic	Speaker
<b>SESSION 1 EBUS</b>		
09 00 - 09 25	Principles and practice of convex probe EBUS	Dr Vishal Kumar Chitikeshi
09 25 - 09 50	Principles and practice of radial EBUS	Dr Vishwanath Gella
<b>SESSION 2 RIGID BRONCHOSCOPY</b>		
09 50 - 10 15	Basics of rigid bronchoscopy- How i do it - A step by step approach	Dr Arjun Srinivasan
10 15 - 10 40	Practical approach to management of central airway obstruction	Dr Ritesh Agarwal
10 40 - 11 05	Foreign body removal - Flexible and rigid bronchoscopic approaches	Dr Rajeev Goyal
<b>SESSION 3 FIRE AND ICE</b>		
11 05 - 11 30	Hot modalities in pulmonology- How to make best use of these?	Dr Jayachandra A
11 30 - 11. 55	Cryotherapy In Pulmonology	Dr Arjun Srinivasan
<b>SESSION 4 RECENT ADVANCES</b>		
11 55 - 12 20	Bronchial thermoplasty - Selection of right candidates and procedure	Dr Inderpaul Singh
12 20 - 12 45	Navigational bronchoscopy - Indian experience	Dr Karan Madan
<b>SESSION 5 THORACOSCOPY</b>		
12 45 - 13 05	Basics of medical thoracoscopy and choosing the right thoracoscope	Dr Nagarjuna Maturu
13 10 - 13 25	Medical thoracoscopy - Pushing boundaries Is it the domain of pulmonologist & A procedural overview	Dr Dharmesh Patel
13 30 - 14.00	<b>Lunch</b>	
14 00 - 17 00	Assembling at skill lab for Hands-on Workshop Hands On Sessions	

## HANDS ON STATIONS

- ◆ Rigid Bronchoscopy
- ◆ Linear EBUS
- ◆ Medical Thoracoscopy
- ◆ CRYO
- ◆ Radial EBUS
- ◆ Bronchial thermoplasty
- ◆ APC / Electrocautery
