OUR VISION

At Asian Institute of Gastroenterologists (AIG) we believe in providing best of healthcare and continuous training to upgrade the skills of the doctors serving in Asian Institute of Gastroenterology as well as those who get trained in AIG.

Our vision is to provide a continuous learning platform in Gastroenterology and Hepatology by training doctors from all over world to upgrade their learning and skills so that they provide better patient management. AIG Endoscopy Master Classes is one such program designed to train young practicing Gastroenterologists in the field of Endoscopy through classroom sessions and hands on training.

The objective of AIG Endoscopy Master Class is to provide learning and practice to young practicing Gastroenterologists so that they can further upgrade their skills in endoscopy. The Master Class programme will provide the trainees a platform to interact with experts which will help them with useful insights in their day to day clinical practice.

The Master Class programme will encompass several topics such as ERCP, EUS and EMR / ESD in the form of classroom sessions and hands on training. The trainees would also have the opportunity to have an overview of advanced therapeutic procedures like POEM. The training will be provided by expert faculty of Asian Institute of of Gastroenterology.
