Ivo Boskoski, Italy

Welcome to **AIG LIVE**

Dear Colleagues,

Gastrointestinal Endoscopy has revolutionized the diagnosis and management of many gastrointestinal diseases. This field continues to evolve and hitherto unreachable frontiers are now being crossed.

The AIG Endoscopy Workshop organized by Asian Institute of Gastroenterology and AIG Hospitals is being held at Hyderabad (AIG Hospitals, Gachibowli on 29th August 2019 and HICC (Hyderabad International Convention Centre), Hyderabad on 30, 31st August 2019). This workshop would focus both on the established and the newer endoscopy techniques. The workshop includes over 35 live procedures transmitted from AIG to HICC and keynote lectures on current important issues in Gastroenterology. An intimate interaction with the masters during breakfast sessions as well as hands-on workshop are the other highlights of the programme. This conference will benefit Gastroenterologists, Post Graduates, Physicians and Surgeons interested in Gastrointestinal diseases.

An academic feast and the legendary Hyderabadi hospitality awaits you as we look forward to your active participation in the workshop.

Team AIG

AIG LIVE

Endoscopy Workshop

Thursday, 29 August 2019

Venue: Auditorium, AIG Hospitals

DAY **1**

Satellite Symposia (Only for pre registered with limited registrations)

Luminal Endoscopy and Advanced Imaging (Olympus Symposium)
